## **REPORTING OF REACH IMPLEMENTATION**

## 2007 - 2009

# **FINLAND**

28 MAY2010

# **MS REACH Reporting Questionnaire**

General Information
0.1. Which Member State are you reporting for? (compulsory) Finland
<ul><li>0.2. What reporting period are you reporting on? (compulsory)</li><li>2010 ⊠</li></ul>
Data given covers period June 2007 – December 2009 and we assume that next reporting period will be 2010 – 2014 (deadline for submitting the report being June 2015). 2015 or later
<b>0.3.</b> Primary contact person's name. (compulsory)
Kaija Kallio-Mannila, Finnish Environment Institute (SYKE) and Annette Ekman, National Supervisory Authority for Welfare and Health (Valvira)
<b>0.4.</b> Please provide an email address for the primary contact person. (compulsory)

## Theme 1 - Information on the Competent Authority

<b>1.1.</b> How many Competent Authorities are responsible for REACH? (compulsory)
<ul> <li>There is one Competent Authority responsible for REACH.</li> <li>There is more than one Competent Authority responsible for REACH.</li> </ul>
One / First Competent Authority Responsible for REACH
<b>1.2.</b> What is the name of the organisation where the Competent Authority is situated? (compulsory)
Finnish Environment Institute
<b>1.3.</b> What is the address of the organisation? (compulsory)
Mechelininkatu 34a
P.O.Box 140
00251 Helsinki
Finland
<b>1.4.</b> What is the email address of the organisation? (compulsory)
syke.reach@ymparisto.fi

<b>1.5.</b> What is the telephone number	er of the organisation? (com	pulsory)		
+358 20 610 123 What is the fax number of the orc	compulsory)			
<mark>+358 9 5490 2591</mark>	+358 9 5490 2591			
1.6. What part of REACH does th	nis part of the Competent Auth	ority deal with?		
(compulsory)				
All [] Helpdesk	」 Evaluation	Restriction     Risk Assessment		
☐ Other				
Please list the other parts of REACH that this part of the Competent Authority deals with				
here.				
1.7. From what part of Governme	ent does this part of the Comp	etent Authority have authority		
from? (compulsory)				
Environment	_ Health	Consumer protection		
Worker protection	Other			
Please list the other part of Gove	rnment the Competent author	ity gets authority from.		
1.8. Are employees in the Compe	etent Authority directly employ	ed by Government (civil		
servants)?				
(compulsory)				
⊠ Yes □ No				
1.9. What skills do staff in this pa	rt of the Competent Authority	have? (compulsory)		
Chemistry	Toxicology	🔀 Ecotoxicity		
	Enforcement			
⊠Policy ⊠Other	Exposure			
	aff in this part of the Competer	nt Authority have.		
Please list the other skills that staff in this part of the Competent Authority have.				
Risk assessment and risk management				
<b>1.10</b> What other abamical logisle	tion are the staff of the REAC			
<ol> <li>1.10. What other chemical legisla (compulsory)</li> </ol>	ation are the stall of the REAC	H CA Involved In?		
	I Biocides	Pesticides		
Food	🗹 Other	🔲 None		
If Other, please list the different le	egislations here			
Volatile organic compounds (VOC) in paints and varnishes European Directive 2004/42/EC				
Detergents Regulation 648/2004		opean Directive 2004/42/EC		
1.11. Are there any other institution	ons that the Competent Autho	rity works with in relation to		
REACH issues? (compulsory)				
⊠ Yes □ No				
Please list the other institutions the	hat the Competent Authority w	orks with.		
Finnish Institute of Occupational Health				
1.12. Does the Competent Autho	rity outsource any of its work?	(compulsory)		

<ul> <li>Yes</li> <li>No</li> <li>Please provide details on who the Competent Authority outsources parts of its work to.</li> </ul>
Thease provide details on who the competent Authonly outsources parts of its work to.
<b>1.13.</b> How adequately resourced is the Competent Authority? (compulsory)
1 = Lowest, 10 = Highest. Resources included are a mix of financial, technical and human resources. This question is to help the
Commission to understand possible reasons if there are implementation problems.
□ 1 □ 2 □ 3 ⊠ 4 □ 5 □ 6 □ 7 □ 8 □ 9 □ 10
Space is available below to provide further comments on the resourcing of the Competent Authority. (optional)
Finnish Environment Institute has not received any new vacancies based on REACH. We are
implementing the REACH with the same resources (4 man years) as we did implement the
Existing Substances Regulation and New Substances Directive. However, some proposals
have been made for receiving new resources based on reorganisation of the chemicals administration. From the beginning of 2011 the two REACH CAs will be merged to a new
institute called Safety and Chemicals Agency.
Second Competent Authority Responsible for REACH
Second Competent Authority Responsible for REACH
<b>1.14.</b> What is the name of the organisation where the Competent Authority is situated? (compulsory)
National Supervisory Authority for Welfare and Health (Valvira)
<b>1.15.</b> What is the address of the organisation? (compulsory)
PO Box 210, FIN-00531 HELSINKI
<b>1.16.</b> What is the email address of the organisation? (compulsory)
kemo@valvira.fi
1.17. What is the telephone number of the organisation? (compulsory)
+358 9 772920
<b>1.18.</b> What is the fax number of the organisation? (compulsory)
+358 9 77292138

1.19. What part of REACH does this part of the Competent Authority deal with?				
(compulsory) All Helpdesk	<ul><li>Evaluation</li><li>CLP</li></ul>	<ul><li>Restriction</li><li>Risk Assessment</li></ul>		
Please list the other parts of REACH that this part of the Competent Authority deals with				
here.				
from? (compulsory)	nment does this part of th	ne Competent Authority have authority		
Environment	⊠ Health □ Other	Consumer protection		
Worker protection Please list the other part of Go		t authority gets authority from.		
<ul> <li><b>1.21.</b> Are employees in the Coservants)?</li> <li>(compulsory)</li> <li>☑ Yes</li> <li>☑ No</li> </ul>	mpetent Authority directl	y employed by Government (civil		
<ul> <li>1.22. What skills do staff in this</li> <li>Chemistry</li> <li>Economy</li> <li>Policy</li> <li>Other</li> <li>Please list the other skills that</li> </ul>	<ul> <li>Toxicology</li> <li>Enforcement</li> <li>Exposure</li> </ul>	Authority have? (compulsory) Ecotoxicity Legal CLP ompetent Authority have.		
biochemistry				
1.23. What other chemical legi	islation are the staff of the	e REACH CA involved in?		
(compulsory) Import/Export Food If Other, please list the differer Detergents Regulation (EY) No		➢ Pesticides ☐ None		
<b>1.24.</b> Are there any other instit REACH issues? (compulsor)	y)	nt Authority works with in relation to hority works with.		
Finnish Institute of Occupation National Institute for Health an				
<b>1.25.</b> Does the Competent Aut ☐ Yes ⊠ No Please provide details on who		s work? (compulsory)		

<b>1.26.</b> How adequately resourced is the Competent Authority? (compulsory)         1 = Lowest, 10 = Highest.         Resources included are a mix of financial, technical and human resources. This question is to help the Commission to understand possible reasons if there are implementation problems.         □       1       □       2       3       □       4       ∑       5       □       6       □       7       □       8       9       □       10				
Space is available below to provide further comments on the resourcing of the Competent Authority. (optional)				
Human resources are the main lacking component. From the beginning of 2011 the two REACH CAs will be merged to a new institute called Safety and Chemicals Agency.				

### Theme 2 - Information on Cooperation and Communication with other Member States, the European Chemicals Agency (ECHA) and the Commission

2.1. How effective is communication between MS for REACH? (compulsory)					
1 = Lowest, 10 = Highest					
How could effectiveness of communication between MS be improved? (compulsory)					
Official communication is comprehensive enough and needs no improvement. However for					
example in enforcement cases we are lacking direct contact details of relevant persons					
concerned. Therefore quick communication is somewhat difficult.					
<b>2.2.</b> How effective is collaboration between MS for REACH? (compulsory)					
1 = Lowest, 10 = Highest					
How could effectiveness of collaboration between MS be improved? (optional)					
We have mainly regional (Nordic) collaboration on a case by case basis.					
<ul> <li>2.3. Are there any special projects/cooperation on chemicals that the MS participates in with other MS outside of REACH? (compulsory)</li> <li>Yes</li> </ul>					
Please provide further information.					
Nordic Chemical Group under the Nordic Council of Ministers. The Nordic Chemical					
Group has several subgroups and projects such as Enforcement, Classification and					
Labelling, Risk Assessment and Human Exposure.					
Labelling, Risk Assessment and Human Exposure.					

<ul> <li>OECD: harmonized test methods (including nano)</li> </ul>
<b>2.4.</b> How effective is MS communication with ECHA? (compulsory) 1 = Lowest, 10 = Highest
$\square 1 \square 2 \square 3 \square 4 \square 5 \square 6 \square 7 \boxed{8} 8 \square 9 \square 10$
How could effectiveness of communication with ECHA be improved? (optional)
<b>2.5.</b> How effective is MS collaboration with ECHA? (compulsory)
1 = Lowest, 10 = Highest □ 1 □ 2 □ 3 □ 4 □ 5 □ 6 □ 7 ⊠ 8 □ 9 □ 10
How could effectiveness of collaboration with ECHA be improved? (optional)
<b>2.6.</b> How effective is MS communication with the Commission (specifically Article 133 Committee)? (compulsory)
1 = Lowest, 10 = Highest12345678910
How could effectiveness of communication with the Commission be improved? (optional)
<b>2.7.</b> How effective is MS collaboration with the Commission (specifically Article 133 Committee)? (compulsory)
$1 = \text{Lowest, 10} = \text{Highest}$ $1 = 1  2  3  4  5  6  \boxed{7}  8  9  10$
How could effectiveness of collaboration with the Commission be improved? (optional)
<b>2.8.</b> Has use been made of the safeguard clause of REACH (Art. 129)? (compulsory) Yes
☑ No If so, please provide further information.

### Theme 3 - Operation of the National Helpdesk and Provision of Communication to the Public of Information on Risks of Substances

<b>3.1.</b> Please provide the name of the organisation responsible for operating the National Helpdesk for REACH. (compulsory)				
In Finland the national Helpdesk is run by both Competent Authorities as a joint venture, the responsible authorities being: the National Supervisory Authority for Welfare and Health (Valvira) and the Finnish Environment Institute (SYKE)				
<b>3.2.</b> What is the address of the Helpdesk? (compulsory)				
People running the Helpdesk are working at the premises of the Competent Authorities and the Helpdesk as such has no specific (physical) address.				
<b>3.3.</b> What is the web page address of the Helpdesk? (compulsory)				
The Helpdesk has two web site addresses that lead to the same starting page: www.reachneuvonta.fi and <u>www.clpneuvonta.fi</u>				
<b>3.4.</b> What is the email address of the Helpdesk? (compulsory)				
The Helpdesk does not have a specific email address. Customers send their requests by a query form that is available on the web page of the Helpdesk and they get the answers to their email addresses. The query form can be found at: <a href="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size=" http:="" reach="" reach.nsf="" sp3?open&cid='kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reach.nsf/sp3?Open&amp;cid=kysymyslomake&amp;size="http://www.reachneuvonta.fi/Reach/reachneuvonta.fi/Reach/reachneuvonta.fi/Reach/reachneuvonta.fi/Reachneuvonta.fi/Reach/reachneuvonta.fi/Rea&lt;/td' www.reachneuvonta.fi=""></a>				
<b>3.5.</b> What is the telephone number of the Helpdesk? (compulsory)				
The telephone numbers of the helplines are: +358 400 393 033 (available on workdays during working hours ~8:00 - 16:00) +358 40 590 4141 (available on workdays 9:00 - 12:00)				
<b>3.6.</b> What is the fax number of the Helpdesk? (compulsory)				
The Helpdesk does not have a specific fax number but can be reached via the faxes of the Competent Authorities.				
<ul> <li><b>3.7.</b> Are there any more organisations responsible for operating the National Helpdesk for REACH? (compulsory)</li> <li>☐ Yes</li> <li>☑ No</li> </ul>				
3.8. Please indicate the number of each type of staff that are involved in the Helpdesk.				
0       1-5       6-10       >10         Toxicologist

3.18. What proportion of enquiries receive complex, OR No information (compulso		emea to be	1) straig	nt forwar	a, 2)
	mplex	(	%) No	o informat	ion
We regard division of the questions according to the criteria suggested rather subjective and vague. However, it is obvious that in 2007 most of the questions were rather straight forward and the situation has gradually changed during this time peridod so that towards the end of 2009 the major part of the questions have been rather complex.					
3.19. How long, on average, does it take to questions?	o respon	d to the foll	owing ty	pes of

3.29. How effective was each type of activity? (compulsory)
Please select the types of activities above before this section can be filled in
Please select the types of activities above before this section can be filled in. 1 = Lowest, 5 = Highest
1 = 12 + 1000 = 10000 = 1000 = 1000 = 1000 = 1000 = 100000 = 100000 = 100000 = 100000 = 100000 = 1000000 = 1000000 = 100000000
Other
We don't have data available to be able to produce an objective answer to this kind of
question. One could think that direct mailing to selected target groups is the most effective
way of getting the message through to companies concerned. It seems that communication
on pre-registration has reached the target audience rather well since the total number of pre-
registrations from Finland was quite high and enforcement authorities have not recorded
cases where pre-registration has not been done.
<b>3.30.</b> Do you have a REACH webpage/website? (compulsory)
X Yes
No
<b>3.31.</b> Do you have a single webpage for REACH or multiple pages? (compulsory)
Single webpage
Multiple webpages
REACH&CLP Helpdesk has a single web site that contains an extensive number of pages. In
addition to that both CAs (SYKE and Valvira) have some information on REACH and CLP at
their web sites, and furthermore, there is quite a lot of information at the web site of the
Ministry of Social Affairs and Health.

### Theme 4 - Information on the Promotion of the Development, Evaluation and Use of Alternative Test Methods

4.1. Does the MS contribute to EU and/or OECD work on the development and validation of alternative test methods by participating in relevant committees? (compulsory)
Yes
No
4.2. What has been the overall public funding on research and development of alternative testing in your MS each year? (compulsory)
Euros 0-10,000
Euros 10,001-100,000
Euros 100,001-1,000,000
No information

### Theme 5 - Information on Participation in REACH Committees (FORUM, MSC, RAC, SEAC, CARACAL, PEG, RCN, REHCORN)

5.1. On a scale of 1-10, how effective do you think the work of the Committees associated
with REACH are? (compulsory)
1 = Lowest,  10 = Highest
<b>F.O.</b> How and the effective set of the Operative set is improved (0,
<b>5.2.</b> How could the effectiveness of the Committees be improved? (optional)
The work in the Committees is still at the beginning and it is difficult at this stage to find ways
to make the work more effective. The processes in the Committees are quite complicated
and a lot of thought should be given to streamline the work.
Issues of concern are, in our opinion, e.g. very long agendas of the CARACAL meeting.
Moreover, the progress with harmonised classifications in RAC is at the moment very slow
compared to the old TC C&L.

## **Theme 6 - Information on Substance Evaluation Activities**

## **Theme 8 - Information on Enforcement Activities**

General Information General information relating to the submission
<b>8.1.</b> Please enter the MAIN enforcing authority for REACH within the Member State. (optional)
<ul> <li>8.2. Is there more than one enforcing authority for REACH within the Member State?</li> <li>(compulsory)</li> <li>∑ Yes</li> <li>☐ No</li> </ul>
<ul> <li>8.3. Please provide details on the other enforcing authorities for REACH within the Member State. (compulsory)</li> <li><u>At national level</u></li> </ul>
In Finland there are two ministries responsible for the superior management and direction of the enforcement activities. They are the <b>Ministry of Social Affairs and Health</b> (health hazards and physical hazards) and the <b>Ministry of the Environment</b> (environmental hazards).
<ul> <li>At central administration level the main enforcement authorities (operating under the Ministries above) are the National Supervisory Authority for Welfare and Health (Valvira) and the Finnish Environment Institute (SYKE). Their remit covers: <ul> <li>coordination of and guidance for regional and local enforcement authorities' activities</li> <li>participation in the work of ECHA's Forum and national coordination of Forum's enforcement projects</li> <li>enforcement at national level of REACH product related (placing on the market) provisions concerning registration, PPORD notifications, communication of information in the supply chain and compliance with restrictions (not including use</li> </ul> </li> </ul>
conditions related provisions)
Customs. Their remit covers enforcement of import of substances, mixtures and articles.
<b>Consumer Agency</b> . Their remit covers enforcement of restrictions concerning certain consumer products. (That section of the Consumer Agency was merged to the Safety Technology Authority on 1.1.2010.)
At regional level
<b>Regional occupational safety authorities</b> (Occupational Safety and Health Inspectorates of Regional State Administrative Agencies). Their remit covers product related provisions (registration obligation, PPORD notifications, communication of information in the supply chain and compliance with restrictions, compliance with authorisation obligation) as well as use conditions related provisions when occupational hazards are concerned. <b>Regional environment authorities</b> (Environment and natural recourses Inspectorates of Centres for Economic Development, Transport and the Environment). They remit covers enforcement of use conditions related provisions (compliance with SDS instructions (exposure scenarios), authorisations and with restrictions) when environmental hazards are concerned.

At local level

Municipal supervisory authorities for chemicals. Their remit covers enforcement of product related provisions when placing on the market and retail sale is concerned.
Municipal environmental protection authorities. Their remit covers enforcement of use conditions related provisions when environmental hazards are concerned in smaller sites that that are not mandated to regional environment authorities by the Environment Act.
Regional and local enforcement authorities are obliged to carry out inspections at sites that fall under their remit. They are also obliged to take part in the European level enforcement campaigns when their remit is concerned. They are further obliged to work in co-operation with each other.
<b>Enforcement Strategy</b> General information on the enforcement strategy (or strategies) in place within the Member State.
<ul> <li>8.4. Has an overall strategy (or strategies) been devised and implemented for the enforcement of REACH? (compulsory)</li> <li>☑ Yes</li> <li>☑ No</li> </ul>
<ul> <li>8.5. If Yes, is the strategy (or strategies) in line with the strategy devised by the Forum? (compulsory)</li> <li>Yes</li> <li>No</li> </ul>
<ul> <li>8.6. If No, are there any plans for making an enforcement strategy (or strategies)?</li> <li>(compulsory)</li> <li>Yes</li> <li>No</li> </ul>
<b>8.7.</b> Please outline the enforcement strategy within the Member State in a maximum of 2000 characters. (compulsory)
The national REACH enforcement policy was developed when the bill for amending the Chemicals Act was prepared and it was based on the principle that inspections to the sites dealing with chemicals are carried out by regional and local authorities that are already enforcing other (chemicals related) legislation in those sites. The idea is that (excluding special enforcement campaigns) the authorities carry out enforcement of REACH when carrying out enforcement of other legislation, such as the Occupational Safety Act, Environment Act, Consumer Safety Act, Customs Act. Coordination is provided by central authorities, ministries for regional authorities and CAs for local authorities.
Based on the principles laid down the above enforcement authorities have prepared their individual enforcement strategies. E.g. SYKE and Valvira have prepared a common three year action plan for REACH implementation that covers also enforcement-related issues and SYKE has a more detailed plan that defines yearly objectives, necessary actions and priorities of its enforcement actions. Valvira and SYKE have also produced a three year enforcement programme for municipal supervisory authorities for chemicals that covers similar issues.
Preliminary enforcement programmes obliged by AMS Regulation that cover also enforcement of product related REACH-provisions have been prepared by the authorities concerned.

There is an ongoing national joint project aiming at defining national outlines and common principles for REACH enforcement.

**Co-ordination, co-operation and exchange of information** Explanation of the co-ordination, co-operation and exchange of information, between enforcing authorities, with Competent Authorities and internationally.

**8.8.** Please outline of the mechanisms put in place to ensure good cooperation, coordination and exchange of information on REACH enforcement between enforcing authorities and the Competent Authority. (compulsory)

The Chemicals Act requires cooperation between enforcement authorities.

Valvira and SYKE have prepared an enforcement programme described in point 8.7., and they follow the actions taken by local authorities based on the reports the local authorities produce.

**8.9.** Describe how these mechanisms have operated in practice during the reporting period (e.g. regular meetings, joint training, joint inspections, co-ordinated projects and so on). (compulsory)

Meetings occur regularly where ministries and enforcement authorities at the central administration level discuss current issues on enforcement. SYKE and Valvira meet the enforcement authorities at regional and local level at regular bases.

Regional and local authorities receive information mail from CAs and CAs arrange training occasions and seminars for them regularly.

#### 2010 Reporting

**8.10.** Describe the inspection and investigation strategy and methodology. (optional)

8.11. Describe the level and extent of monitoring activities. (compulsory)

We are able to carry out searches from the National Product Register to increase our understanding of what kinds of chemicals are on the market in Finland. ECHA's list on preregistrations from Finland has also been used for monitoring the situation.

**8.12.** Describe sanctions available to enforcing authorities. (compulsory)

Finnish provisions on penalties have already been reported to the Commission as laid down in Article 126. Reference is also made to the Milieu report "Report on penalties applicable for infringement of the provisions of the REACH Regulation in the Member States" http://ec.europa.eu/enterprise/sectors/chemicals/files/reach/docs/studies/penaltiesreport\_en.pdf

Brief summary: The Chemicals Act (744/1989) with its amendments defines administrative measures which enforcement authorities can make use of (e.g. instructions to correct non-compliances, prohibition of operations, conditional fine, threat of actions at the defaulter's

expense). The Chemicals Act and the Penal Code define sanctions for severe cases (noncompliance that results in environmental pollution or health hazards) which need a Court decision. Sanctions can lead to a maximum of two years of imprisonment.

8.13. Describe the referrals from ECHA. (compulsory)

None.

**8.14.** Describe the referrals from other Member States. (compulsory)

A couple of informal requests have been received.

**8.15.** Describe any other measures/relevant information. (optional)

2007

Reporting information for 2007

#### Dutyholders

**8.7.1.** Provide an estimate of the total number of dutyholders who are likely to have duties imposed on them by REACH. (optional)

The number of enterprises that manufacture, import, distribute or use substances on their own, in mixtures or in articles is not available for Finland.

**8.7.2.** Provide an estimate of the above dutyholders who are likely to constitute registrants as defined by REACH. (optional)

In 2008 nearly 500 Finnish Companies submitted pre-registrations to ECHA. According to ECHA's survey, Finnish companies are going to submit fewer than 300 registration dossiers in 2010. In addition to that, a small number of Finnish companies acting as Only Representatives submitted pre-registrations for about 750 non-EU companies.

**8.7.3.** What was the total number of inspections and investigations carried out by enforcing authorities in which REACH was discussed and/or enforced for this year? (compulsory)

Regional environment authorities carried out inspections in 350 industrial sites and information on future REACH obligations on use conditions was disseminated in about 5 cases.

The Occupational Health Inspectorates carried out 79 inspections and the Municipal supervisory authorities for chemicals carried out 37 inspections, where REACH was discussed.

All together there were 121 inspections concerning REACH.

**8.7.4.** State the number of manufacturer dutyholders subject to inspections and investigations. (compulsory)

### Theme 9 - Information on the Effectiveness of REACH on the Protection of Human Health and the Environment, and the Promotion of Alternative Methods, and Innovation and Competition

9.1. Do you think that the effects of REACH would be better evaluated at a Member State (MS) or EU level? (compulsory)
☐ MS
☑ EU

**9.2.** What parameters are available at MS level that could be used to assess the effectiveness of REACH in a baseline study? (compulsory)

Information received via the enforcement activities. In addition the Finnish Institute of Occupational Health has measurements available on exposures (concentrations) at workplaces and the Finnish Environment Institute on the concentrations of chemicals mainly in the aquatic compartment. Also the HELCOM (Baltic Marine Environment Protection Commission) has data on chemicals in the Baltic Sea area.

### Theme 10 - Other Issues/Recommendations/Ideas

**10.1.** Please provide any further information on the implementation of REACH that the MS considers relevant. (optional)

Reach is an extensive and complicated piece of legislation and we are concerned that the interpretation of the legal text is changing frequently. This makes the implementation of the regulation challenging to the industry, the CAs and the enforcement authorities especially in the early years from entry into force.

Furthermore, the lack of resources in the Finnish CAs makes the situation more demanding. We feel that it is not realistic to assume a similar kind of contribution from a small country with few resources than from a bigger country, for example in proposing SVHC substances or harmonised classification and labelling. In our opinion, there are too many meetings which take more time than expected and less time is left for actual chemicals' evaluation and enforcement activities.

As a smaller issue, we find this reporting questionnaire far too detailed and question the usability of the results as for many questions there is no data available. Reporting period should have been clearly stated in the questionnaire.

<b>10.2.</b> Do you wish to upload documents in support of this submission (compulsory) ∑Yes ☐ No
<b>10.3.</b> Please provide a brief description of the documents that you are uploading. Note: You may upload more than one document. (compulsory)
The entire report from Finland in pdf-format, containing also all the information that couldn't be filled in the awkward electronic format. Please note that according to the advice given in the Caracal meeting, there are many points in the electronic form where we have provided information that is not correct to be able to proceed in the form. So please check correct data/information on Finland from the pdf-document that is uploaded.

Prepared by Informal task force comprised of officers of the National Supervisory Authority for Welfare and Health and the Finnish Environment Institute

Authorised by Informal working group comprised of authorities involved in implementation of REACH

Date 28.5.2010.
